

KGUARD® SUSTAINABILITY COMMITMENT

At KGUARD® we are committed to incorporate sustainable practices in order to reduce environmental impact and ecological footprint. That is why we have implemented a SUSTAINABILITY COMMITMENT, with initiatives that we share with you through this SUSTAINABILITY COMMITMENT DECLARATION.

As of today, our green actions are the following:

LONG-LASTING DESIGNS

We want our products to last a long time even under adverse conditions. This is why our choice of silicon as a base material which is durable and recyclable. The components of our products are reusable. The materials have been chosen to fulfill their function for a long time.

Our goal is to work with and try to implement environmentally friendly production processes and new materials (bamboo, natural rubber, recycled plastics...) to reduce our ecological footprint and increase the life cycle of our products.

ZERO WASTE

The components that make up the KGUARD® products are the minimum elements for the products to work properly. Including the packaging of the product, quality bags designed to keep all the components of our product after use, for proper storage and maintenance.

PRODUCTS DESIGNED FOR DECONSTRUCTION

Our products have separate components to facilitate recycling and replacement, extending their useful life. It is possible to obtain spare parts. Please go to our online store to purchase individual components, or contact us if you want a part that is not available in our store.

REDUCE NON ESSENTIAL PACKAGING

With the goal of reducing the amount of paper used, we make the traditional product instructions available to the user by means of QR codes. The QR code can be found on the packaging or on the label of the product.

However, the instructions can also be found on our website or [here](#).

WE TAKE CARE OF THE PRODUCT AT END OF ITS USEFUL LIFE

We strive to be 100% circular in the management of our products and the waste we generate. From now on, you can send KGUARD® products or their different parts that you are not going to use, regardless of their condition, to our facilities and get a 10% discount on your next KGUARD® purchase. This is how it works:

1.-Send us the products by post to the following address and send us an email to ventas@kguard.es answering the questions we indicate below:

Address:

IDEILAN DISEÑO S.L. - KGUARD

Estartetxe 5 - 317

48940 Leioa - Bizkaia - Spain

IMPORTANT:

KGUARD® will not be responsible for shipping costs, which must be borne by the sender.

Questions to be answered and sent by email:

- 1- What products and/or items are you sending us?
- 2- How long have you used them? How many uses do they have?
- 3- Why did you decide to send it to us?
- 4- Where did you buy the product?

2- When the product arrives at our facilities and we verify that we have received the user's email, we will send you **a promotional code for a 10% discount on your next KGUARD® purchase through Amazon.** This code is for a single use only and redeemable within a maximum period of 2 years from the time of communication of the code. It is cumulative to any other offer that may be available at that time on Amazon and applicable to the purchase of any item in our store.

This is our way of thanking you for your collaboration with KGUARD® towards a more sustainable world.
